

To whom it may concern:

As Regional Manager at KB Home San Antonio, I take the pleasure of recommending Power Lift Foundation Repair to your company. I have worked closely with Power Lift since 2003 and have been very impressed with their work.

The work that Power Lift has performed has been total underpinning of residential foundations with total suspension. Power Lift is very effective and efficient in performing the work. I have not had to go back to any home to perform adjustments as Power Lifts piering system is very effective.

I strongly recommend Power Lift Foundation Repair.

Sincerely,
