To Whom It May Concern:

I am writing today regarding my firm, Westdale Asset Management's, relationship with Power Lift Foundation Repair, Inc. Over the last ten years we have utilized Power Lift's services on many properties that we manage. The projects have ranged in size from a few thousand dollars to over one million dollars. The work performed and services provided have always been completed on time and as agreed upon.

As a management company, Westdale Asset Management has utilized numerous firms to provide foundation services. I can say without hesitation that Power Lift stands alone in the design and implementation of complex repair projects. The results Power Lift provided on some of our more difficult projects were beyond our expectations. Their personnel are professional and have always gone to whatever length was required to satisfy our objectives.

I would highly recommend Power Lift being given full consideration for any projects you may have which requires foundation support or lifting. I will be more than happy to provide additional information if so desired. I may be reached at 214-515-7000.

Sincerely,

Mike Charron
Westdale Asset Management
